

Waste Site Reclassification Form

Date Submitted: 1/29/2001 Originator: S. G. Weiss Phone: 372-9495	Operable Unit(s): 200-ST-1 Waste Site ID: TFS OF 218-E-4 Type of Reclassification Action: Rejected: <input checked="" type="radio"/> No Action: <input type="radio"/> Interim Closed Out: <input type="radio"/> Closed Out: <input type="radio"/>	Control Number: 2001-019 Form Status: Approved
--	--	---

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

Description of current waste site condition:

This site is a sanitary drainfield associated with the 2607-E3 septic system. The system has been deactivated.

Basis for reclassification:

When the 2607-E3 Septic System was documented within WIDS, it was added as two separate sites: 2607-E3 (septic tank) and TFS of 218-E-4 a.k.a. Tile Field South of 218-E-4 (sanitary drainfield). In most other cases within the WIDS, septic systems are documented as a single WIDS site which includes the septic tank, the drain field, and other associated piping.

The 2607-E3 Septic Tank and the TFS of 218-E-4 have been consolidated under WIDS Site Code 2607-E3. The WIDS write up for 2607-E3 has been updated to include information that had been documented in TSF of 218-E-4. In the future, the two septic system components will be tracked under the single WIDS Site Code 2607-E3.
